PREPARATIVE BIOCOMPATIBLE COLUMN HARDWARE (PEEK)

PREPARATIVE COLUMN HARDWARE: PEEK

Sykam offers a unique range of biocompatible inert PEEK columns of different dimensions.

Pressure Stable up to 250 bar

The PEEK columns are pressure stable and can be used up to 250 bar pressure. This pressure stability makes these columns a perfect alternative to the conventional glass columns.

Axial Compression

The PEEK columns are also available with an axial compression mechanism.
